

Summer Internships

Have you ever thought about attending a Summer Internship Program to prepare your future career?

We will work together with you to find your best skills and will offer you a function aligned with your personal goals.

Benefits of the program

Opportunity to work on innovative, appealing and applicable subjects.

Hands-on projects on current technologies integrated into Link offerings.

Combination of moments created to promote your development and a team ready to help you at all times.

A relevant professional experience in your resume.

Duration

6 to 8 weeks.
